

Chemical / physical nature:

EE - 1127 is a modified epoxy with drying fatty acid in aliphatic solvent.

Major application:

This resin is recommended for industrial air-drying paint, where high resistance to corrosion environment is required. This resin is also suitable for stoving paint and varnish with melamine formaldehyde resin.

Storage:

EP - 1127 should be stored indoors in original unopened and undamaged containers in a dry place at storage temperature under 25 °C. Exposure to sunlight should be avoided.

Stability:

Under the above mentioned storage condition the stability of EP - 1127 will be 12 months ex work.

Technical information:

Specific	Amount	Unit	Standard
Appearance	Viscos liquid	Gardner	
Color	8	Percent	
Solid content	96 - 98	Min	ASTM D3251
Gel time	10	CPS	Internal standard
Viscosity	2000-4000	Gardner	ISO 2555

*100 gr mixture of resin and hardener at 25 °C
