

Chemical / physical nature:

Polytox EP - 215 is an epoxy based on BPHA with polyamine. This resin intended for molding and imagery.

Mix ratio :

- 100 part resin
- 20 part hardener

Properties:

- Light surface drying
- Light color
- Can molded with high thickness
- Yellowing resistance

Storage:

EP - 215 should be storage indoors in original Unopened and undamaged containers in a dry place at storage temperature under 25 °C. Exposure to sunlight should be avoided.

Stability:

Under the above mentioned storage condition the stability of EP - 215 will be 9 month ex work

Technical information:

Specific	Amount	Unit	Standard
Appearance	Viscos liquid		
Color	Light yellow	Gardner	
Solid content	100	Percent	ASTM D3251
Gel time	60	Min	internal standard
Viscosity	300 - 600	CPS	ISO 2555

*100 gr mixture of resin and hardener at 25 °C
